CONDUÇÃO DA REVISÃO SISTEMÁTICA

Fonte: Portal ACM (http://dl.acm.org/)

Data de busca: 12/05/2015

Palavras-chave utilizadas: face recognition, face detection, face tracking, low resolution, surveillance camera, illumination invariance, pose invariant, person recognition.

String utilizada: ((face recognition OR face detection OR face tracking OR person recognition) AND (low resolution OR surveillance camera) AND (illumination invariance OR pose invariant))

Total de artigos encontrados: 77

Organização dos artigos encontrados: Os artigos encontrados foram catalogados com o auxilio do software *Zotero*, e a utilização do padrão bibliográfico "ACM SIGCHI Proceedings (2016)".

Lista de artigos encontrados:

- [1] Abdelkader, M.F., Roy-Chowdhury, A.K., Chellappa, R. and Akdemir, U. 2008. Activity Representation Using 3D Shape Models. *J. Image Video Process.* 2008, (Jan. 2008), 5:1–5:16.

Critérios de inclusão dos artigos:

- (a) Trabalhos que definirem técnicas de reconhecimento facial.
- (b) Trabalhos que definem conceitos de processamento de imagens e de reconhecimento facial.
- (c) Trabalhos que se relacionem com o reconhecimento facial em ambientes reais, não controlados e de baixa luminosidade.
- (d) Trabalhos que envolvem o reconhecimento facial utilizando câmeras de baixa resolução.

Critérios de exclusão dos artigos:

- (a) Trabalhos que não tenham relação com o reconhecimento facial.
- (b) Possíveis trabalhos que utilizam técnicas de reconhecimento facial, porém em ambientes controlados, por exemplo, onde há boa iluminação e utilizam câmeras de alta resolução.
- (c) Trabalhos que apresentem avaliação superficial, sem apresentar os métodos e técnicas utilizadas.
- (d) Trabalhos que realizam o reconhecimento facial utilizando modelos 3D.
- (e) Trabalhos que não tenham sido avaliados por seus pares.

Métodos de avaliação:

Os artigos encontrados serão avaliados primeiramente através de seus títulos e resumos, e posteriormente, se necessário, através da leitura de algumas passagens especificas do artigo, como por exemplo a introdução, os resultados e/ou a conclusão. Os artigos serão excluídos se atingirem pelo menos um dos critérios de exclusão preestabelecidos.

Lista de artigos com status de inclusão ou exclusão:

Artigo	Critérios de inclusão atendidos	Critérios de exclusão atendidos	Status
